Clewiston There Tonite For Devils

The Pahokee Senior High Blue Devils will travel to Clewiston this Friday evening for another attempt to overcome their number one jinx, to overcome their number one jinx, the Clewiston Tigers. For the pitt several years Coach Carl Ferrara and his Tigers have consistently won games from the Pahokee eleven, outsmarting the Blue Devils when they were unable to outplay them. Even when Pahokee won the Suncoast Conference championship a few years ago the fine record of play for that year was blemished by a defeat from the hands of the Tigers.

Here's what the new 334% interest rate on U.S. Savings Bonds means to you:

$$^\3=4 fourteen months faster than before

The Bonds you own are better than ever, too

The new 34% rate means your savings grow faster than before with U.S. Savings Bonds. \$3 becomes \$4, or \$3,000 becomes \$4,000 in just seven years, nine months. This applies to all Series E Bonds bought since June 1, 1959.

Then, all older Bonds, both Series E and H, pay more now-an extra 1/2% from June 1 on, when held to maturity.

And, all Series E Bonds carry a new 10-year extension privilege. This means your Bonds will keep earning liberal interest automatically after maturity.

These three new cash benefits make today's U.S. Savings Bonds the finest in history. They make the ones you own now better, too.

More advantages of U.S. Savings Bonds

You can save automatically. Just tell your company how much to deduct every payday for Bonds, and your Bonds will be delivered to you. This way you can't forget to save. And, remem-

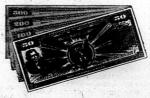

ber, the money you don't touch can't slip through your fingers.

You can get your money, with interest, when you need it. Your Bonds are a ready reserve to use anytime you wish. But, it pays well to hold

Your savings can't be lost or stolen. The U.S. Government guarantees to replace your Bonds. free, if anything ever happens to them.

You save more than money. The Bonds you buy help keep the peace because peace costs money. Money for better education, new scientific research, greater military strength. And the money you save helps strengthen our nation's economy which depends on the financial strength of individuals to keep it sound.

WITH WORK-PROVED INDEPENDENT FRONT SUSPENSION!

Chevy's '61 fleet swings in with a ready-made reputation as the trucks that are worth more because they work more ... the latest editions of the haulers that scrapped the I-beam axle and proved the important advantages of independent front suspension!

proved the important advantages of independent front suspension!

You'll find new models for '61—long-wheelbase 4-wheel drive units—and thoughtful refinements throughout the line. But the big news for '61 is nailed-down proof (based on owner reports) that Chevy's torsion-spring design is the best thing that's happened to trucks in decades!

With Chevy's independent front suspension and Sturdi-Bilt design, you cruise over trails where other trucks creep. You feel the difference in less wheel fight and vibration. You can see why drivers are happier, why loads are better protected and why the truck itself will stand up to thousands of miles of more work. That goes for any size Chevy, too—pickups, tilt cabs, tandems, all of them.

Check the latest specs with your Chevrolet dealer: capacity, power teams, options. Then, by all means, drive a '61. Once around the block and you'll never be satisfied with a front axle truck again!

State Coffers In **Excellent Shape**

TALLAHASSEE - Despite a business slowdown and Hurricane Donna, revenues for the operation of state bureaus are in good shape, State Budget Director Harry Smith

reports.

Donna caused millions of dollars

Donna caused millions of dollars damage, but Smith said it didn't appear that state revenues would be hit too hard.
"In fact, there's a possibility state revenues may be helped by sales tax on construction materials used in rehabilitation work," he said.

The state comptroller's office had to dip into trust funds recent-ly to provide cash for outstanding bills. Some \$10-million were bor-rowed to meet the September dis-tribution of school funds. Gov. Le-E. Green have also authorized up to \$25-million worth of borrowing from trust funds which will be repaid after Jan. 1.

BEAUTIFULLY BUILT TO TAKE CARE OF ITSELF

The 1961 Ford introduces a whole new concept of what a car can do for you . . . and for itself!

It lubricates itself. New nylon bearings and a newly developed lubricant keep the '61 Ford freshly greased for 30,000 miles. Good-bye grease racks! What's more, it cleans its own oil. The 1961 Ford's Full-Flow oil filter lets you go 4,000 miles between oil changes.

It adjusts its own brakes. A "mechanical brain" keeps brakes adjusted for the life of the lining.

Rust? Ford's body is specially processed to resist corrosion, even to galvanizing body panels beneath doors.

Ford takes care of itself on the turnpike, too, with a new 390cu. in. Thunderbird Special V-8 that has all the punch you'll ever need. The 352 Thunderbird Special V-8 and 292 Thunderbird V-8 thrive on regular gas. And, for top economy, you can choose the '61 Mileage Maker Six.

This is the 1961 Ford . . . beautifully proportioned to the Classic Ford Look . . beautifully built to take care of itself.

The Treasury explains why the new ones you buy and the ones you own now are better than ever

Q: How does the new 33/4% interest rate benefit me?

4: With Series E Bonds, the rate turns \$18.75 into \$25.00 fourteen months faster than the old rate. Your savings increase faster, because your Bonds mature in just 7 years, 9 months.

mature in just 7 years, 9 months.

With Series H Bonds, the 10-year maturity period stays the same but more interest is paid you each six months. With both E and H Bonds the new rate works out to 2½% for the first year and a half; then a guaranteed 4% each year to maturity.

- Q: When did the new rate become effective?
- A: June 1, 1959.
- Q: Does the new rate change the Bonds I bought be-
- A: All older E and H Bonds pay more now—an extra

 ½% from now on, when held to maturity. The increase takes effect in the first full interest period
 after June 1.
- Q: Will the Bonds I own automatically earn their new rate?
- 4: Yes. You don't need to do a thing—just hold on to your Bonds,
- Q: When my E Bonds mature, will they keep on earning interest?
- Yes. An automatic 10-year extension privilege went into effect along with the new interest rate. This means your E Bonds will automatically keep earn-ing interest after maturity.
- Q: With the new interest rate, should I cash in my old Bonds and buy new ones?
- A: No. The automatic 1/2% increase makes it unnecessary—and in almost every cases is 16 your advantage to retain your present Bonds.
- Q: How are series FI Bonds different from series E Bonds?
- A: The chief difference is this: You buy H Bends at full face value and the interest is paid by Treasury

check every six months for the life of the Bond. You buy E Bonds at 75% of face value and the interest accumulates to maturity. H Bonds provide income for living expenses, while E Bonds build enest egg for the future. That's why many retired people hold H Bonds and families saving for, say, a child's education, buy E Bonds.

- Q: In what denominations can I buy series E and series H Bonds?
- A: E Bonds: \$25 (cost \$18.75), \$50 (cost \$37.50), \$100 (cost \$75.00), \$200 (cost \$150.00), \$500 (cost \$375.00), \$1,000 (cost \$750.00), \$10,000 (cost \$750.00).

 H Bonds: \$500, \$1,000, \$5,000 and \$10,000. They are priced at face value.
- Q: How safe are U.S. Savings Bonds?
- A: Savings Bonds are an absolutely riskless way to save. The United States Government guarantees the cash value of your Bonds will not drop, that it can only grow.
- Q: What if my Bonds should be lost, stolen or destroyed?
- A: You can't lose. Every Bond purchased is recorded by the Treasury. If anything happens to your Bonds they are replaced—free.
- Q: Where can I buy Bonds?
- Q: Where can I buy Bonds?

 A: Buy E Bonds at any bank—it takes only a few minutes. Buy them automatically through the Payroll. Savings Plan where you work. This Ban means you can have any amount you name automatically deducted every payday. The Bonds you buy by installments are delivered to you automatically, too. Your bank will take your order for H Bonds.
- Q: How do I help strengthen America's peace power when I buy U.S. Savings Bonds?
- A: Peace costs money—money for military strength and for science. And money saved by individuals helps keep our economy sound.
